

Intro

When the transgressions of man against the Divine seem to have become irreversible and evil has managed to consume and corrupt every living being, She creates a new slab of earth on top of the old one, burying everyone and everything and creates a new iteration of Her beloved, but sometimes neglected Creation. As far as we are concerned this has happened nine times, creating in the process nine circles of Hell.

Evil however does persist, despite the Divine's efforts to bury it. Each time a new Creation has been added, banished outcasts from Heaven and earth add to the ever-growing hordes of evil that govern the discs of the underworld. There, the history is unbroken, the hatred is ever-growing and the power of anger is unrelenting and fresh.
